When meeting with a client we present all available fabrics & colours

NEW SYSTEM BLINDS

1. ROLLER BLINDS

We offer:

- **roller standard blinds,**
- **roller mini blinds,**
- **roller in cassettes,**

A mini-roller is produced on Ø 19 mm tube. The ball chain in a mini roller is much smaller than the standard one - only white colour available.

A standard roller is produced on a Ø 25 mm tube. Universal mounting handles allow inside, outside and ceiling installation.

Roller in cassette integrated with the window. Installation possible in all kinds of windows. After rolling up the fabric is protected by a cassette. Fabric is kept close to a glass by two runners. Cassette is installed to window slat with 2 screws.

Our offer has hundreds of fabric's colours, patterns & types:

sheer, opaque, anti-static, dust-resistant fabric repelling dirt & dust.

2. VENETIAN BLINDS

A new elegant Venetian blind designed solely for installation directly on the window.

The flat cassette provides an integral connection between the window and the Venetian.

**Venetian blinds can be fitted on folding doors
THEY ARE WIND RESISTANT**

3. VERTICAL BLINDS

Practical vertical blinds designed for large areas. Inside installation with a metal mounting clip or ceiling installation with wall bracket.

Vertical blinds can be operated electrically. We deliver made to measure vertical blinds.

*aluminium rail with the carrier system is noiseless,
efficient & easy to operate*

*...with slats made of voile, standard or blackout fabric,
aluminium, or PVC*

Best UK prices

4. PLEATED BLINDS

We offer you top quality pleated blinds
FOR ALL WINDOW TYPES

*Our pleated blinds can be **FOLD UP** and **FOLD DOWN**
- a double function as a standard*

Used on shaped windows in roofs, conservatories,
skylight, glassed roof structures

**We may also offer blinds for caravan, yacht & boat
windows**

5. INDUSTRIAL BLINDS

We specialise in **non-standard blind solutions** including **blackout blinds** giving up to 100% light reduction for all types of rooms and all types of door and window applications, including **skylights**.

Education: In computer rooms and science labs for example, the rightness of natural daylight is a common problem with the result that students are not able to undertake exercises accurately.

Offices: Training and seminar rooms can be made more effective for presentations when extraneous daylight is controlled by blackout blinds

*Other non-standard blinds eg. special for **pivot** windows or **external** blinds also available*

Evening and weekend installations can be arranged to meet your requirements

6. BESPOKE BLINDS

FULLY CUSTOMISABLE

**Venetian blinds, industrial blinds, conservatory blinds,
blackout blinds... and more**

Bespoke blinds we offer:

- *school blackout blinds,*
- *bespoke shutters & blinds for colleges,*
- *made to measure dim-out blinds,*
- *solar reflective blinds for hospital windows,*
- *vandal-proof blinds for city councils,*
- *heat-control roller blinds,*
- *100% blackout blinds,*
- *and many others*
